SANITARY SOLUTIONS^{INC.}

Bulldog Fittings/Valves...Bulldog Tough.

Sanitary Solutions Custom Fabrications

Sanitary Solutions is your source for the only 3-A Swivel Joint in multiple styles. With sizes 1"—6" to choose from, 316L alloy, polished to a sanitary finish and multiple styles to choose, we are our choice.

So, what does a Swivel Joint do? Swivel joints provide torsional rotation between flow lines to allow hoses to pivot to reduce stretching, twisting or bending. Notice the bearing washer and face seal—these parts are instrumental for increased load distribution on the line.
